It is not graphical, there is no interface. The only interface you can have is

http://binarykarma.com/?q=node/1

If you need a complete solution with GUI, you are better with virtuozzo, but it is not free.

Hypervm is very good
have very good support
i am very sure that soon hypervm go to high level
if you sent one ticket to swsoft,they answered more of 3 day
but in forum hypervm,lxhelp answer very lets.about 2 min
for 2 vps is full free
i installed this product on 5 dedicated server and i have test it
if can find more ibformation say to all

Thanks
