Subject: Re: Set default software on new VE
Posted by dkrysak on Sun, 04 Feb 2007 20:29:45 GMT

Thanks for the info! This morning I had discovered this once I started poking around much deeper within the templates directory. I had jumped the gun in posting this before i had spent the time really looking around. I then saw that the system had included a "minimal" setup and I just had to adjust my command line option when I vreated a new VE.

Much appreciated though!
