Quote:
[root@coffee /]# find / | grep tcl.h
/usr/bin/tclsh8.4
/usr/bin/tclsh
/usr/share/man/man1/tclsh.1.gz
/usr/share/swig/1.3.29/tcl/tclsh.i
find: WARNING: Hard link count is wrong for /proc/vz/vzaquota: this may be a bug in your filesystem driver. Automatically turning on find's -noleaf option. Earlier results may have failed to include directories that should have been searched.

kernel and tools version:
