Subject: Disk usage - custom value

Hello all,

-bash-3.00# df -h
Filesystem Size Used Avail Use% Mounted on
simfs 1000M 618M 329M 66% /

I need to set some custom value for "Used" and "Avail" of statfs(). For example:

-bash-3.00# df -h
Filesystem Size Used Avail Use% Mounted on
simfs 1000M 10M 990M 1% /

Is there a quick way to do that? I've tried to use "vzquota init" for that with custom "-p" value, but without any success.
