Hello,

/usr/lib64/ruby/gems/1.8/gems/rake-10.4.2/lib/rake/rdoctask. rb:4: ERROR: 'rake/rdoctask' is obsolete and no longer supported. Use 'rdoc/task' (available in RDoc 2.4.2+) instead. (RuntimeError)
from /usr/lib/ruby/site_ruby/1.8/rubygems/custom_require.rb:31:in `gem_original_require'
from /usr/lib/ruby/site_ruby/1.8/rubygems/custom_require.rb:31:in `require'
from /opt/ovz-web-panel//script/cron_runner:11

After my installation, got this error from the webinterface.
Is there any way to fix this?

Thank you.

Same here, but it isnt supported by OpenVZ itself and no one is free to explain a fix.
Web Panel is created by someone else.
