## Subject: Re: ports and port forwarding Posted by Vasily Tarasov on Mon, 12 Feb 2007 21:29:26 GMT View Forum Message <> Reply to Message

Hello,

The answer on this question is also iptables related. So, you see, how important this tool is for networking. Please, find time to study it a little

If you assign private IP address to VE you should use NAT to give this VE an access to Internet. Look at this article: http://wiki.openvz.org/Using\_NAT\_for\_VE\_with\_private\_IPs

HTH, Vasily
