hi
as I use bind mounting (http://wiki.openvz.org/Bind_mounts) to offer access to the lvm's I wonder if there is a possibility to tell vzctl to automatically exec a script wich binds the lvm's at the startup of my containers.

thanks
joe

Hello,

check "Managing OpenVZ scripts" chapter (p. 87) in OpenVZ User's Guide
http://download.openvz.org/doc/OpenVZ-Users-Guide.pdf
