I'm running openvz on a IA64 box, the kernel vz tools are running well, but I cann't find a os template for IA64 platform, Is there anyone can help me on this, thanks.

Also, I tried to make a template, but I failed to build vzrpm43 on my IA64 box running Redhat AS4.

Thanks

Hello,

you're right, there are some problems. vzyum/vzrpm doesn't work properly for 64 bit platfroms...

I suppose, the easiest way for you is to use debian template
http://wiki.openvz.org/Debian_template_creation

Hello,

I've just created a Debian IA64 template, you can download it from
http://download.openvz.org/~vass/debian-3.1-ia64-minimal.tar .gz

HTH,
Vasily

Thank you very much.

I also find an article about creating debian template.

http://wiki.openvz.org/Debian_template_creation

Many thanks again.
