Hello,

I am having this issue in containers:

[root]# top
top: /proc is not mounted, required for output data

Also, very stange I am having this message when I start a container:

[root]# vzctl start 64140
Warning: Unknown iptable module: ipt_recent, skipped
Starting container ...
Container is mounted
Adding IP address(es): x.x.x.x (edited by me)

Setting CPU limit: 500
Setting CPU units: 50000
Setting CPUs: 0
Configure meminfo: 131072
Set hostname: x.x.com
File resolv.conf was modified
Setting quota ugidlimit: 250
Container start in progress...

What is that "command not founde" message?

Please help me

Hello,

- could you please provide the problem VE's configuration file?
- what is the version of vzctl you use at the moment?
