Subject: [Devel] Join Our Team at LinuxWorld San Francisco

We're very excited that this year OpenVZ will have exhibit space in the dot-org pavillion of LinuxWorld in San Francisco, August 6-9. We will be showing and demoing OpenVZ server virtualization, answering questions and so on.

Here is the best news of all. We can have up to 7 people at our exhibit. While a few OpenVZ developers will come, it will definitely be less than 7. We do not want to stall OpenVZ development. :)

We would like the community to participate with us in the event. If you live in California (or can come to this LinuxWorld), are an OpenVZ user and would like to be a part of our team at the OpenVZ exhibit -- you are very welcome to join us! Please email me (kir@openvz.org) your details and we'll discuss arrangements.

Regards,
Kir Kolyshkin on behalf of OpenVZ team.
