Dear Friends,

I am using vzmigrate but when I configure for using port 2023 for ssh, occur error on rsync.

vzmigrate --online -v --keep-dst -r no --ssh="-p 2023" srv007.conntrust.com 118

RSYNC don´t use port 2023.

Thanks

Adriano

add set -x in the beginning of vzmigrate script to see
where exactly the error occurs
