Dear All

I want to user DRBD to sync files and mysql, then create HA Solutions.

But VPS can't create single Virtual Disk for DRBD.

Does everyone have any ideal?

If have new ideal, please tell me how to create it?

Thanks for your help.

Nick Chang

Hello,

never tried it but look at the following page may it'll help to solve the problem
http://wiki.openvz.org/HA_cluster_with_DRBD_and_Heartbeat

Thanks

I only want to use VPS with DRBD.
I don't want to use DRBD with OpenVZ

Does everyone have any suggest??

Nick
