Subject: [solved] Unable to open pty: No such file or directory

I got this error:

#sudo vzctl enter 403
enter into CT 403 failed
Unable to open pty: No such file or directory

I tried these commands with no luck:

#sudo vzctl exec 403 update-rc.d -f udev remove
#sudo vzctl restart 403

Why is that?

I tried this but got error:

#sudo vzctl exec 403 /sbin/MAKEDEV tty
bash: /sbin/MAKEDEV: /bin/sh: bad interpreter: No such file or directory

$ cat /etc/redhat-release
Fedora release 7 (Moonshine)
$ rpm -qf `which MAKEDEV`

MAKEDEV-3.23-1.2

I already resolved it with different solution.

I used:

vzctl exec 403 "cd /dev; /sbin/MAKEDEV pty"

Thanks anyway.
