Subject: Re: New OpenVZ Web Based Control Panel
Posted by jbond007 on Thu, 02 Feb 2006 12:59:38 GMT

Dear saylor
The package sudo-1.6.7p5-30.1.3 is already installed
The setting.php is been change
I see the control panel and the design
But if you create new vps
Is not working
I check
vzlist --all
Please send me another tip to troubleshot
Best regards
