nano etc/sudoers
after i change all
i login the control panel

i click Setup New VPS>>>
i fill the form
and click submit
but nothing happaned no creation or any error
please help me !

i been check all setting.php
my vz is dafult location
/usr/sbin/

my php location files are
/vzserver
pages work ok
but command not respond
==========
please help me to finish install
Thanks Again god bless you !
