Subject: *CLOSED* add_ip.sh not called ?
Posted by Fabian Kropp on Tue, 03 Apr 2007 08:38:37 GMT

I am using custom add_ip scripts for my debian VE's. Upgrading from vzctl 3.12 to 3.14 invented a problem, that the add_ip is no longer called.
The node also runs debian sarge.

thx

fabian

looks like the exterrnal script thing helps out here
