More precisely, I get this error:

```
iptables v1.2.11: can't initialize iptables table `filter': Table does not exist (do you need to insmod?)
```

Perhaps iptables or your kernel needs to be upgraded.

2.6.9-023stab040.1

In vz.conf:

```
IPTABLES="ipt_REJECT ipt_tos ipt_limit ipt_multiport iptable_filter iptable_mangle ipt_TCPMSS  
ipt_tcpmss ipt_ttl ipt_length"
```

in the VEID.conf file:

```
IPTABLES="iptables_nat"
```

(I also tried with nothing).

No iptables rules active on VE0 (host).

Thanks,
