Are you trying to install slocate inside VE?
Even root is limited by VE disk limit.
run:
df -h
inside VE.

to increase disk quotas use:
vzctl set <VEID> --diskspace N:M --save

Thanks,
Kirill

Subject: [Users] strange problem with quota when try to install using rpm

i had problem when installing an rpm, below is the screen capture:

```
rpm -ivh slocate-2.7-13.el4.6.i386.rpm
Preparing... ##### [100%]
 1:slocate      warning: /etc/updatedb.conf created as /etc/updatedb.conf.rpmnew
##### [100%]
error: unpacking of archive failed on file /usr/bin/locate: cpio: chown failed - Disk quota exceeded
```

i run it as 'root', how come root have quota limit?

running 'quota' will result:

quota

Disk quotas for user root (uid 0): none

Best Regards,
Markus
