Subject: Re: [PATCH] Brush up task's session and group numbers manipulations
Posted by serue on Tue, 15 May 2007 12:37:22 GMT
View Forum Message <> Reply to Message

Quoting Pavel Emelianov (xemul@sw.ru):
> The set of functions process_session, task_session, process_group
> and task_pgrp is confusing, as the names can be mixed with each other
> when looking at the code for a long time.
>
> The proposals are to
> * equip the functions that return the integer with _nr suffix to
>  represent that fact,

Excellent.

> * and to make all functions work with task (not process) by making
>  the common prefix of the same name.

Sounds good.

> For monotony the routines signal_session() and set_signal_session()
> are replaced with task_session_nr() and set_task_session(), especially
> since they are only used with the explicit task->signal dereference.

I suspect someone might complain about that, but it does nicely round
out the api.

thanks,
-serge
