Subject: Re: FC6 Precreated VE and ssh Posted by morik on Wed, 23 May 2007 11:55:35 GMT View Forum Message <> Reply to Message

thanks,

Is your sshd from rpm or it was built custom?

also, you should uncomment next line: "PermitRootLogin yes" in your /etc/ssh/sshd_config file and restart sshd server (# service sshd restart)

Regards, Roman.
