Hello,

thank you for the information, seems that it's a bug
http://bugzilla.openvz.org/show_bug.cgi?id=561

We fixed it in 2.6.18 series, but not in 2.6.9 one. At the moment we're checking is it in fact this bug
and if it's it, we'll port the patch back to 2.6.9 kernel. I'll inform you.

Thanks,
Vasily.
