*HN# vzctl set XX --ipdel all --save; vzctl set XX --ipadd x.x.x.x --save; ifconfig; route -n; iptables -L -n; iptables -L -n -t nat; cat /proc/sys/net/ipv4/ip_forward

*VE# ifconfig

--

run these in seperate terminals:

VE# ping 4.2.2.1

*HN# tcpdump -nvvv -p icmp

--

Paste the output of the commands starting with * and we should be able to see the networking problem.
