Well, as you can see, vzquota with id 194 is already running on the desitnation node:
194: /vz/private/194bak
1k-blocks 3253724 4096000 5120000 0 172800
inodes 163315 800000 880000 0 172800 You should swith off this quota first and then retry the migration procedure.

Thank you,
Vasily.
