Subject: Re: Set available memory
Posted by rickb on Wed, 06 Jun 2007 15:49:13 GMT

-Is this the only VE on the server?
-How much memory does your node have?
-do you want the VE to have max 1.5GB or guaranteed 1.5GB?

I can help you with your config. There are many memory metrics which can be confusing but also vastly increase efficiency (assuming more then 1 VE) vs. vmware virtualization style of "1.5GB".
