Subject: *BUG REPORTED* Cannot get info for user quota file from kernel
Posted by swapnilm on Wed, 20 Jun 2007 03:52:33 GMT

Hello,

We are facing following error while doing /scripts/fixquotas on openvz vps.

```
=========================
root@vps01 [/]# /scripts/fixquotas
Installing Default Quota Databases......Done
Quotas are now on
Resetting quota for slippery to 1000 M
edquota: Cannot get info for user quota file from kernel on /dev/simfs: No such process
edquota: Can't initialize quota on /dev/simfs: No such process
No filesystems with quota detected.
=============================
```

We have 2.6.9-023stab044.4-enterprise #1 SMP kernel on openvz node.
Please assist.

Regards,
Swapnil M
