Hi,

use the command "vzlist" to determine the stati of VE's,
more help with vzlist (-> man page of vzlist).

```
# start all stopped VE's
for VE in `vzlist -SHoveid`; do
  echo $VE
  vzctl start $VE
done
```

```
# stop all running VE's
for VE in `vzlist -SHoveid`; do
  echo $VE
  vzctl start $VE
done
```
