Hello,

you assign an IP address 192.168.6.53 to your VE. But somebody else in your network already use this IP address. The MAC address of this "bad guy" is 00:17:e0:27:ad:1a.

Sometimes people assign VE the same IP address that HN has. It is not right and leds to the error message you have indicated. Probably this is your case...

HTH,
Vasily.
