Subject: urgent *all VEs not accessible
Posted by mora on Thu, 12 Jul 2007 15:45:53 GMT

Hello
i installed apf on the HN but suddenly all the vez became inaccessible from the internet but accessible locally

for example
when i try to access the ve from my pc through ssh , http ,ftp or even ping its offline but when i access it from the shell of the HN i can access it

i tried stopping and removing apf , rebooting , restarting vz but no hope and cannot access my VEs from the internet anymore
please help
