```
iptables -t nat A POSTROUTING -s 192.168.6.0/255.255.255.0 -o eth0 -j SNAT --to-source  
59.162.229.214
```

You missed the -t nat and your subnet is 192.168.6.0/24 mine was 192.168.1.0/24
