Subject: OpenVZ help needed!
Posted by joelee on Wed, 01 Aug 2007 21:29:29 GMT

Hi All,

I was wondering if there are any OpenVZ expert preferably in the NYC/NY area who would be willing to provide some support services for OpenVZ and some linux sysadmin support.

Also, It would be a good idea to have a job board like service on this site for those looking to post for paid services from the community. What's anyone thought on that idea.

Joe
