Subject: Unable to set capability: Operation not permitted
Posted by Emitkins on Fri, 03 Aug 2007 08:43:22 GMT

i have done many installs of openvp prior to this however on this new server i get.
[root@n3 vz]# vzctl start 1003
Starting VE ...
VE is mounted
Unable to set capability: Operation not permitted
Unable to set capability
VE start failed
VE is unmounted

what woud be the capabiliy it cannot set? i have looked and quota's are off system wide.
