Subject: containers mini-summit?

I just sent the next (final) version of the containers development roadmap. Eric Biederman and Paul Menage will be at kernel summit representing this work.

We had planned on having a containers mini-summit the day before the kernel summit. However interest in that appears as though it may be too low to justify having a real mini-summit.

So we have a few options:

1. we could have a mini-summit purely by phone.
2. there is a possibility of using a part of a conference room from LCE, if attendance will be low. However, having a phone line to include those who cannot attend would be unlikely.
3. if there is a large planned attendance, we could continue to seek a separate venue for the mini-summit.

Who is interested in (a) attending the mini-summit in person, (b) attending the mini-summit by phone, or (c) not interested?

For those interested in attending, what would you expect to happen at the mini-summit? a) discuss the roadmap to ensure everyone is properly represented at the summit b) go over pieces of functionality from the roadmap and discuss implementation options, who is interested in working on what, and possible timelines. c) something else.

thanks,
-serge
