---

```
:/home/eliast# vzsplitt -n 8
```

```
WARNING: Recommended minimal size of partition holding /mnt/stuff/vz/private/ is 20Gb!
```

```
WARNING: partition holding /mnt/stuff/vz/private/ do not have space required for 8 VEs
```

```
The maximum allowed value is 1
```

```
Default disk space values will be used
```

Same. Tried with 8, 16, 20, 64. Should I stop existing VEs?
