:/home/eliast# vzsplitt -n 8

WARNING: Recommended minimal size of partition holding /mnt/stuff/vz/private/ is 20Gb!

WARNING: partition holding /mnt/stuff/vz/private/ do not have space required for 8 VEs

The maximum allowed value is 1

Default disk space values will be used

Same. Tried with 8, 16, 20, 64. Should I stop existing VEs?
