---

Below are some stats during no access to server via domain or IP, but I had full access to Plesk Cpanel:

<http://rateometer.com/projects/psaux.jpg>

<http://rateometer.com/projects/top.jpg>

<http://rateometer.com/projects/netstat1.jpg>

<http://rateometer.com/projects/netstat2.jpg>

Is there a better way to capture the screenshot? Any help will be greatly appreciated.
