
Subject: [RFC][PATCH] Use task_pgrp()/task_session() in copy_process
Posted by [Sukadev Bhattiprolu](#) on Thu, 11 Jan 2007 15:58:16 GMT

I am trying to replace process_group() and process_session() calls in copy_process() with task_pgrp() and task_session().

Since task_pid() task_pgrp(), task_session() for the swapper are NULL, I had to treat swapper as special in this patch and would like some comments.

Should we instead do some magic in start_kernel() so we don't have to treat swapper special or maybe move the check for pid_t == 0 into task_pgrp()/task_session() ?

P.S: For find_attach_pid()/attach_pid(), pls see my recent patches to Containers@ and LKML.

From: Sukadev Bhattiprolu <sukadev@us.ibm.com>

Replace process_group() and process_session() with container-friendly task_pgrp() and task_session().
