
Subject: [RFC][PATCH] Use task_pgrp(), task_session() in copy_process()

This patch must be applied on top of the patch to static initialize swapper struct pid (or we will crash on boot) and serves as a test for that patch.
I have unit tested on x86_64 for now.

Replace process_group() and process_session() with container-friendly functions - task_pgrp() and task_session().
