---

From: Eric W. Biederman <[ebiederm@xmission.com](mailto:ebiederm@xmission.com)>

Start the reclaimer thread using kthread\_run instead of a combination of kernel\_thread and daemonize.

The small amount of signal handling code is also removed as it makes no sense and is a maintenance problem to handle signals in kernel threads.

Cc: Neil Brown <[neilb@suse.de](mailto:neilb@suse.de)>

Cc: Trond Myklebust <[trond.myklebust@fys.uio.no](mailto:trond.myklebust@fys.uio.no)>

Signed-off-by: Eric W. Biederman <[ebiederm@xmission.com](mailto:ebiederm@xmission.com)>
