Pls let me know if I can push the following helper patches to Andrew Morton. I posted these a couple of times to Containers earlier and believe I have addressed the comments I received.

[PATCH 1/6] Define and use task_active_pid_ns() wrapper

[PATCH 2/6] Rename pid_nr function

[PATCH 3/6] Rename child_reaper function

[PATCH 4/6] Use pid_to_nr() in process info functions

[PATCH 5/6] Use task_pid() to find leader's pid

[PATCH 6/6] Define is_global_init() and is_container_init()

Thanks,

Suka
