This is a note to let you know that I've just added the patch titled

Subject: [PATCH 4/4] driver core: Implement shadow directory support for device classes.
to my gregkh-2.6 tree. Its filename is

driver-core-implement-shadow-directory-support-for-device-classes.patch

This tree can be found at
<http://www.kernel.org/pub/linux/kernel/people/gregkh/gregkh-2.6/patches/>

Subject: [PATCH 4/4] driver core: Implement shadow directory support for device classes.
To: Greg KH <greg@kroah.com>
Cc: Greg KH <gregkh@suse.de>, Dave Hansen <hansendc@us.ibm.com>, Benjamin Thery
<benjamin.thery@bull.net>, Linux Containers <containers@lists.osdl.org>, Tejun Heo
<htejun@gmail.com>
Message-ID: <m1r6n52e5c.fsf_-_@ebiederm.dsl.xmission.com>

This patch enables shadowing on every class directory if struct class
has shadow_ops.

In addition device_del and device_rename were modified to use
sysfs_delete_link and sysfs_rename_link respectively to ensure
when these operations happen on devices whos classes have
shadow operations that they work properly.
