Subject: [PATCH][NETNS] Use list_for_each_entry_continue_reverse in setup_net
Posted by Pavel Emelianov on Mon, 17 Sep 2007 11:02:53 GMT
View Forum Message <> Reply to Message

I proposed introducing a list_for_each_entry_continue_reverse
macro to be used in setup_net() when unrolling the failed
->init callback.

Here is the macro and some more cleanup in the setup_net() itself
to remove one variable from the stack :) Minor, but the code
looks nicer.
