This would be a good opportunity to remove the single-allocated queue struct
in netdevice (at the bottom) that we had to put in to accomodate the static
loopback. Now we can set it back to a zero element list, and have
alloc_netdev_mq() just allocate the number of queues requested, not
num_queues - 1.

I'll put a patch together based on this patchset.

Thanks,
-PJ Waskiewicz
