Subject: [PATCH 0/3] Consolidate cgroup files creation for resource counters Posted by Pavel Emelianov on Wed, 03 Oct 2007 10:53:27 GMT

View Forum Message <> Reply to Message

Right now we have only one controller in -mm tree - the memory one - and it initializes all its files manually. After I developed the kernel memory one it turned out, that the names of resource counter specific files has changed. In the future, if anything in the resource counters change, we'll have to rewrite all the controllers we will have by that time.

To make all the containers working with the resource counters look similar I propose to create the resource counters specific files in one place.

Any comments/wishes before I send it to Andrew are welcome.
