i.e. something like:

```
struct cgroup_iter it;  
struct task_struct *p;  
while ((p = cgroup_iter_next(cs->css.cgroup, &it)) {  
    set_cpus_allowed(p, cs->cpus_allowed);  
}  
cgroup_iter_end(cs->css.cgroup, &it);
```

Paul
