Subject: Problems with online migration with 039 and the tun/tap patch
Posted by draga on Sun, 07 Oct 2007 12:03:15 GMT

Hello. After applying the 039 tun/tap patch for online migration, I get this error:

Setting up checkpoint...
    join context..
    dump...
Can not dump VE: Invalid argument
unsupported chrdev 10/200
Checkpointing failed
Error: Failed to dump VE

What could be wrong?
Thank you!
