Subject: application on host Posted by mccharlet on Tue, 09 Oct 2007 16:41:40 GMT View Forum Message <> Reply to Message

Hi,

I have two VE on my openvz Host. One VE have apache2 and i have installed apache2 on the host.

If i want restarted apache on my host, Failed If i stop apache on my VE, that's OK

How to restart apache on my host?
