Subject: Re: Debian installation precompiled kernel images -- so confused
Posted by a1bert on Sat, 13 Oct 2007 09:01:15 GMT

it's another question for maintainers not for you

debian packages are signed to allow you to verify that package is not altered or compromised. there is a signing key for debian.systs.org packages but not for openvz.org packages in the "Installation on Debian" wiki....
