Subject: Re: forcedeth problems with 2.6.18-028stab045.1
Posted by wilf on Fri, 19 Oct 2007 10:17:12 GMT

Hi Konstantin,

Quote:could you please give me some details?
i've just taken a 2.6.22 mainstream kernel, applied patch-ovz003.2-combined.gz from
http://wiki.openvz.org/Download_kernel_2.6.22 and successfully compiled the kernel with config
kernel-2.6.22-x86_64.config.ovz taken from the same page.
No errors.
Could you please tell me which gcc version you used?
fox ~ # gcc --version
gcc (GCC) 4.1.2 (Gentoo 4.1.2 p1.0.2)
Copyright (C) 2006 Free Software Foundation, Inc.

Quote:and which config you used?
Hmmm... I just downloaded kernel-2.6.22-x86_64.config.ovz, used this and the kernel has
complied very nicely. Looks like you hit the nail on the head - Sorry! (FX: Sheepish grin)

In your opinion, how close to release is the 2.6.22 branch?

Best Regards, Paul.
