I haven't tried the bridging setup but I believe that "snowdeal" was able to make it run - take a look at [http://forum.openvz.org/index.php?t=msg&goto=1761&&amp;mp;srch=dummy0+openvpn#msg\\_1761](http://forum.openvz.org/index.php?t=msg&goto=1761&&amp;mp;srch=dummy0+openvpn#msg_1761) .

Shouldn't routing show actually better performance than bridging? That's at least how they say it on the openvpn website. I haven't tested the performance as I've been focusing on making it work and my Internet connection has been of low quality lately so it's not easy to do any speedtests etc.

Tomas
