... just a note to memory - looks like 028stab047.1 has been released the same day, and it looks like it missed this commit, as it doesn't compile with:

```
kernel/pid.c: In function 'free_pid':
kernel/pid.c:197: error: dereferencing pointer to incomplete type
kernel/pid.c: In function 'alloc_pid':
kernel/pid.c:233: error: dereferencing pointer to incomplete type
make[2]: *** [kernel/pid.o] Error 1
make[1]: *** [kernel] Error 2
(and the patch mentioned earlier still fixes this)
```
